**WYOMING**

Mammoth Hot Sp: K294AG 106.7 granted 760 watts (h)

to translate KGVW-FM 96.7 Belgrade, Montana

**CANADIAN NEWS****ONTARIO:**

Windsor: CKLW 93.9 is moving more towards 70s oldies

Thanks go out this month for station news to the following people: John Johnson, Matt Sittel, Tim Noonan, Dave Nieman, Doug Smith, Bill Nienajadly, Eric Bueneman, Bruce Hall, and of course, the people at M Street Journal. If you subscribe to their fine publications, mention that you heard of them from the WTFDA. And if you note a format change, do a favor for the folks at M Street, and your fellow DXers, for whom that station could be a potential DX catch. Some other news that for some reason failed to make my notes, and I just caught before press time: W278AA, 103.5 in Madison, Alabama is on the air, with a strong signal, translating WHVK 93.3 in Tullahoma, Tennessee. And little WMSC, in Montclair, New Jersey, is supposedly to move to 90.3, from its present position of 101.5, because of interference by them caused to Trenton's WKXW: "New Jersey 101.5".

73, Greg

## NEW STATIONS ON THE AIR

Key West, FL: WEYS-22+

11.2kW/62m

TL 24°33'18"N, 81°48'07"W

presumably on Key West- not much  
of anywhere else to put it!

Seen by Ernie Wesolowski  
and Keith Smith while vis-  
iting the area in early  
March.

Salem, IN: WFTE-58+

5000kW/254m

TL 38°42'29"N, 86°05'57"W

Roughly 12km N of Salem on IN-135,  
about 50km NW of Louisville, KY.

Began testing the evening  
of 3/14/94.

## NETWORK CHANGE

Station	Was	Now
KCTZ-7 Bozeman, MT	ABC	CBS
(now a satellite of KXLF-4 Butte)		

## OTHER STUFF

An article in January TVBroadcast indicated that WCIX-6 Miami expects its new tower to be complete as of today. (March 14) Their old tower in Princeton,

Fla. was destroyed by Hurricane Andrew. The new tower is "built to withstand a hurricane of Andrew's intensity."

Elsewhere in Florida, WCPX-6 Orlando has asked a federal court to act on their petition to eliminate the "prime time access rule", or PTAR. The station asked the Commission to repeal the regulation 4 years ago, but the FCC has neither accepted nor rejected the petition. The PTAR prevents network-affiliated TV stations in top-50 markets from airing network programs, or reruns of programs that previously aired on a network.

A transmission standard for HDTV has been chosen. Zenith's Vestigial Sideband (VSB) technology won over General Instrument's Quadrature Amplitude Modulation (QAM). The decision may not be final; broadcasters prefer yet another system, Coded Orthogonal Frequency Division Multiplexing (COFDM). COFDM could allow the use of several low-power transmitters on the same channel as an alternative to one high-power transmitter. On the other hand, no COFDM transmitters have yet been built; it may not work!

After CBS affiliate WHDH-7 Boston decided to preempt CBS *This Morning*, the network signed a contract for WABU-68 to carry the program. Presumably, it'll also be carried on co-owned WCVX-58 and WNHT-21.

Several more stations have signed affiliation agreements with the Paramount Network: KYES-5 Anchorage, AK; WGNT-27 Norfolk, VA; WTOG-44 Tampa, FL; WNPL-46 Ft. Myers, FL; W52AZ Evansville, IN; and KADY-63 Oxnard, CA. (I assume this includes satellite KADE-33 San Luis Obispo) Also, the sale of WGBS-57 Philadelphia to Fox has been cancelled; this means WGBS will not necessarily become the Fox affiliate in the market, and WTXF-29 will not necessarily end up with the Paramount affiliation.

## LPTV WATCH

Call St City; programming

Keith Smith, Fred McCormack,  
Stephen West, Jeff Kruszk, Roy  
Barstow, Dave Nieman, and John  
Johnson.

## FORUM

Randy Miltier, Ashland OR:

(great to hear from the West  
Coast! Except for Dave Sinclair,  
I don't hear from there very  
often..) Randy sent an item from  
the Feb. 8 *San Francisco Chronicle*  
noting KRON-4's ongoing prob-  
lems with NBC. The station has  
angered the network with several  
decisions, including the  
recently-terminated early prime-

time experiment, preemptions of  
Saturday-morning programs, and  
preemptions of prime-time shows  
in favor of Oakland A's baseball.  
KRON recently announced they'll  
delay "Late Night With Conan  
O'Brien" by 30 minutes this fall,  
to open a slot for the new program  
"Last Call".

In response, NBC informed  
the affiliate that renewal of its  
affiliation contract, which ex-  
pires in 1995, is in danger.  
However, if the contract is  
pulled, NBC may not have much  
choice in another affiliate.  
KGO-7 is owned by ABC; and with  
the ratings success of the CBS  
network, (and the expense and  
confusion arising from their re-  
cent purchase of KKHI AM&FM)  
KPIX-5 is unlikely to switch.  
That leaves KTVU-2; the paper  
says "...seemingly presents too  
many unsolvable problems." though  
without explaining what they are.  
Randy says "I believe that if the  
Fox network wasn't so successful  
that KTVU-2 would be the NBC  
affiliate in the Bay Area." Prob-  
ably true.

What will probably actually  
happen to KRON is a financial  
penalty, with NBC cutting the  
"compensation" payments they make  
to KRON for carrying network pro-  
grams.

Keith Short, Columbus OH:

"When WCLS-TV 62 (LPTV  
W62BE-ds) came on the air in April  
1992, at first it carried the All  
News Channel 24 hours a day, but  
later dropped that format for a  
variety of local and syndicated  
programming. Now it is carrying  
the National Empowerment TV Net-  
work which can be best described  
as a mini C-SPAN TV channel.  
However, I have not seen any local  
or syndicated programs on WCLS-TV  
62 since it joined the National  
Empowerment TV Network. I can now  
pick up WCLS-TV 62 since it in-  
creased its power."

Keith enclosed an item from  
the Feb. 9 *Columbus Dispatch*  
about the station. National Em-  
powerment, or "NET", is run by the  
non-profit conservative Free

**(Forum, Short, contd.)**

Congress Foundation, and a program list shows mostly talk shows with well-known conservative hosts such as Lamar Alexander and Newt Gingrich. I've forwarded the program schedule to Matt Sittel for possible use as an unID aid.

The LPTV has also increased its coverage; according to Director of Operations Doug Wells, they've gone from 10kW to 40kW. (interestingly, my records list them as 20kW..) They've also been added to cable systems in Grove City and Delaware, Ohio.

Also noted in the Dispatch is that WCMH-4 will carry the March 25 home playoff game of the Columbus Chill ECHL hockey team. Team president David Paitson hopes more games will be carried on WCMH next season.

Richard Contone, Jamaica NY:

"Channels 2 and 11 in New York City can be listened to on shortwave on frequencies near 21 and 11MHz respectively,... Does anyone know if this is translator audio, say on 11.183MHz on a VHF carrier?"

I've heard this myself. It's definitely some kind of spurious response of the receiver- TV stations are definitely not licensed to transmit their program audio on shortwave, nor do their transmitters have any circuits on these frequencies. (at least not any transmitters made in the last 20 years) I suspect what's happening is harmonics of the local oscillator on one's shortwave receiver are mixing with the TV sound signal to generate an IF signal which your receiver responds to.

(there are two exceptions to the "no TV audio being transmitted on shortwave" statement. Several frequencies near 26MHz- 26.26 seems particularly popular- are allocated for use by broadcast stations; TV stations often use these to cue reporters in the field, and carry their program audio when not transmitting specific instructions. Also, TBN owns a shortwave station in Utah which carries TBN audio most of the time..)

Rod O'Connor, Kodiak AK:

(now that's really West Coast!) Regarding KZXC-9 Anchorage under Dark Stations: "They are NOT and never have been. They did (University of Alaska-Anchorage) file about five years ago but that's as far as it went." I have the feeling this applies to quite a few other stations on this list.

Roy Barstow, Teaticket MA:

Roy has a few LPTV notes & a little something about WUNI-27 Worcester. WUNI carries the Univision (Spanish-language) network from noon to around midnight EST. (does it then carry regular independent stuff in English the rest of the time?)

Maine Educational TV has added a new translator & moved an existing one to a new channel. New is W14AB Skowhegan; W24AR Portland moves to channel 39 and becomes W39BQ.

Also relatively new is "WFIT Johnston, RI". (actually W23AS Woonsocket) Roy says it began operation on June 7 of last year. Programming is "fitness stuff" 6am-10pm, then ValueVision overnight, except on Sundays when it's ValueVision 24 hours.

Stephen West, Glen Mills PA:

More LPTV info. W05AX Cape May NJ is on with general entertainment. (Stephen thinks it's probably Channel America) A channel 46 is on in Myrtle Beach SC with "Beach TV". "Another LPTV seen near Smithfield NC on channel 35 with professional wrestling..." W35AR, though my last listing showed it as mostly TBN. Programming changes fast in the world of LPTV!

In a separate postcard, Stephen mentions he didn't see WUBI-34 Baxley GA; yes, I do believe they're off. (actually, I believe the station was never built) Also seen was a channel 66 TBN at Hardeeville SC; I believe this is actually W67BJ Savannah, Ga.. Finally, WCTP-36

**(Forum, West, contd.)**

Charleston SC "calls itself Super Trident TV36. Do you know their power and ant. height?" I list 147kW and 233m HAAT.

Jeff Kruszka, Baton Rouge LA:

"Local "WBTR" (W19AW and others) has added yet another channel (6 total now), K21DQ, which began programming on Feb. 22 with the All News Channel and other satellite stuff. (I even saw them relaying The Box from somewhere, but not Baton Rouge!)" WBTR officials told Jeff they're planning to develop an all news-sports-weather channel. ("similar to KNWS-51?")

John Johnson, Billings MT:

John writes electronically several times with Montana information. First, that KUSM-9 Bozeman is indeed on. Until KUSM began fulltime service, Montana cable systems would carry KUSM until 5pm, then switch to KUED-7 Salt Lake City. During this period, half of all money donated to KUED by Montana viewers was forwarded to KUSM! This process was phased out as KUSM reached a full schedule.

Regarding dark stations:

KHBB-10, KRBQ-7, KTVJ-14, KZAR-16, KWBV-18, and KVME-20 are all off & have never operated.

Fred McCormack, St. Paul MN:

Fred supplied a lot of information used elsewhere in this column. He also has a few Dark Stations notes:

KWKU-22 has changed calls to KFCT. WPAJ-24 has changed to WDRG. Neither is yet on.

KRZB-26 has changed to KVTH-26. I wonder if this means they're to be a satellite of KVTN-25 Pine Bluff?

WTAU-19, WWQR-23 and KPNP-24 have been cancelled. KVME-20 probably has been cancelled as well, though no public notice was given of that fact.

WSCO-14 went dark in mid 1987 & returned in late 1988, as confirmed

by Bill Draeb. (presumably it remains on)

Fred questions the accuracy of the K21OD calls generally reported for the St. Louis LPTV on that channel. Both his and my databases do list the call that way, but usually LPTV calls are issued in alphabetical order, and there's a big gap between K21DM and K21OD! Fred speculates it should actually be K21DD; I know my database doesn't show a K21DD.

The New Life Evangelistic Center LPTVs (K56FD, K19DJ, K39CI) are all licensed & on the air. Fred (and myself) are curious exactly what these stations carry & if they translate KNLC-24 or KNLJ-25, how do they receive those signals?

Regarding the K50?? Beeville, TX in February LPTV Watch, Fred believes this may be K49DV Beeville-Refugio. He says the calls on the Lake Charles LA TBN are K51EC.

Eric Bueneman, Hazelwood MO:

Eric confirms that WELF-23 Dalton, Ga. is not yet on. This CP was purchased last fall by the owners of WPGD-50, MPV-21, and two other TBNs; I expect it to appear before too long, as the TBN affiliate for Chattanooga. Eric also confirms that KCHF-11 Santa Fe-Albuquerque is on, with religious programs, making it the only fulltime religious station on VHF outside Alaska.

Eric also reports that KDNL-30 St. Louis is starting a 9pm newscast, to compete with the one on KPLR-11.

John Combs, Orlando FL:

I'd forwarded some of Keith Smith's notes (see below) to John; his comments:

"WAYQ-26 has been dark for probably 2-3 years now - their tower was hit by a Navy plane and damaged - their parent WAYK-56 (now WIRB) has since been

**(Forum, Combs, contd.)**

sold, and 26 has never been reactivated." Carlon Howington has also seen W41BF testing, in Spanish. Keith didn't see WRXY-49, but John says the other Ft. Myers UHF's must be local quality for him to see WRXY at all. Presumably they aren't running the 5000kW I list them with.

John believes WVGA-44 may have returned to the air; he had an unID in that direction in early March, with no other unusual propagation.

Keith Smith, St. Ann MO:

Keith and Ernie Wesolowski took a road trip into south Florida. Their notes:

In Marietta, Ga.: "WTLK-14 is NOT all-talk TV, as its calls (and previous publicity-ds) might suggest... just mostly syndies and a great deal of country videos." "WTBS's ch. 17 feed duplicates 100% the feed I get on cable, BUT ch. 17 airs local Atlanta commercials and DOES ID as "WTBS 17 Atlanta"."

In Jacksonville: "WAWS-30 is indeed a Fox..." (There'd been speculation that the affiliation had shifted to WNFY-47) "WBSG-21 Brunswick, Ga. airs 10pm local news, Rush Limbaugh at 10:30, and local news again at 11pm."

In Cocoa Beach: "WCPX-6 is now putting a 7-day-a-week 10pm newscast on WKCF-18."

In Miami: "W41BF was testing as "WJAN-TV" and other info in Spanish". (Fred McCormack says this station has been granted a power increase to 101.2kW at 156m, quite possibly the highest power LPTV in existence!) "WSVN(-7) only airs Fox's prime time schedule, with WDZL-39 picking up Fox's other stuff."

In Key West: "WEYS-22 is affiliated with Telemundo, TBN, and Showcase America." (wow, how's that for variety in programming!) "Key TV" is on ch.34 with local commercials 24 hours a day - do you have any REAL calls for this

one?" Yep, W34AD. I believe this is a tourist-oriented station; a channel 46 LPTV in Myrtle Beach owned by the same company was reported by Stephen West with tourist advertisements. Keith says W34AD is IDing as "K34EY". "...they've been trying to get ch. 8 (WVFD) on since 1985. They want to be a PBS, and they've applied for funds from NTIA."

From Silver Springs: "WOGX-51 is indeed a Fox, not an independent... unID on ch. 29 or 30 relaying WTOG-44. (I thought ch. 29 was a noncommercial ETV allocation...)" Yes, it is, but LPTVs don't have to follow the non-commercial reservation. This is W29AB Ocala.

Knoxville TN: "There's an unID in the middle 30s with HSC Spree..." (almost certainly W34BE) "however, different from WPMC-54, the regular HSC affiliate." (I'd thought WPMC was religious. Could be they were filling time with HSC, as a number of Southern religious stations do.) "WSJK-2 and WKOP-15 simulcast, and they ID together as chs. 2 & 15. Actually, they ID as "TWO and 15"."

Finally, Keith wrote to a number of the VHF "Dark Stations" listed a few months back. Some interesting replies have been received:

KOFT-3 Gallup NM: Chief Engineer Chuck Amy says they've asked the FCC to move the allocation to Farmington, NM, and the Commission hasn't yet acted on the request. No construction has been performed yet.

KTRG-10 Del Rio, TX: No construction yet. "We are trying to confirm a network affiliation."

## DX ETC.

A bit of tropics, mostly Louisville & Huntsville.. but it's warming up, hopefully tropics will follow..

*73 Doug*

WRITTEN FOR THE WTFDA AND "VHF/UHF DIGEST"  
BY TOM BRYANT, 849 TODD PREIS DRIVE, NASH-  
VILLE, TENNESSEE, 37221. (615) 646-2000

DXERS ARE DETECTIVES OF SORTS. WE'RE ALWAYS LOOKING FOR CLUES TO IDENTIFY THE ORIGIN OF MYSTERIOUS SIGNALS. WE'RE ALSO PRETTY THOROUGH WHEN IT COMES TO LOCATING HARD-TO-FIND PLACES ON MAPS. SOMETIMES WE EVEN BECOME OBSESSED IN OUR SEARCH FOR MORE INFORMATION. THAT'S WHAT THIS COLUMN IS ABOUT...A DXER'S HUNT FOR AN ELUSIVE NAME OF THE PRESENT; AND LOCATION OF THE PAST.

*If you read this column regularly, you are well aware of my quest for information about the CFSS-tv city of license; Warmley, SK. At last, I have answers. A lot of answers! But...let's have a little fun along the way. Make a mental picture of a dxer and two non-dxers driving a rental car from Bismarck, ND to southeastern SK. The passengers are me, my son Chuck, and his wife Sandy. They're along for the ride...and to confirm their suspicions that I'm really as weird as they had always imagined.*

**FOUR BEARS:** It seemed that an outright 'dx-pedition' might be a little more than the kids could handle; so to add validity to the trek, a few stops were planned at points of interest along the way. The first such diversion was the "Four Bears Casino" on the the Fort Berthold Indian Reservation about 90 miles northwest of Bismarck, and just a few miles west of New Town, ND. We didn't stay long as the one-armed bandits had a more voracious appetite than we cared to satisfy!

**JOYCE'S CAFE:** Shortly before 1 PM we pulled into Stanley, ND on U.S. Highway 2. By this time, we were hungrier than the slots at 4 Bears! Not knowing the town, we decided that the cafe with the most cars parked in front would have the best grub. "Joyce's" met that criteria. There were a lot of customers, but the food was only average (and overpriced). However, the atmosphere made up for whatever else the place lacked. I have NEVER seen so much John Wayne memorabilia in my life! If the 'Duke' had known about this place, he's have probably allowed his body to be stuffed, shipped to North Dakota, and put on display by the cash register. Hey Pilgrim, just about everything else was there!

**THE SOO LINE:** Portal, ND is a place I've always wanted to visit. Why? The fellow who got me interested in ham radio and dxing was a Soo Line depot agent there in the '40s; and besides, I'm a railfan. Time had taken its toll on the railway facilities. What had once been a bustling border interchange was now a handful of ramshackle buildings. It didn't take long to realize that treasured memories of this place were confined to my collection of Soo Line historical photos and publications. I'd have given anything to turn the calendar back to 1950. If what I saw was progress, I hated it.

**THE BORDER:** Having lived in Winnipeg, I was used to border crossings; but that was over 30 years ago and I learned quickly that entering Canada isn't necessarily the cakewalk it used to be. Chuck was driving when we pulled up to the Canadian Customs/Immigration building at North Portal, SK. Long hair and dark glasses must make these folks go ballistic. Chuck wasn't aware that [as a rule] border officials have NO sense of humor, and were not amused by his crack about us going to find a tv tower at a place that (maybe) didn't exist. It was out of the car and into a small room...one at a time...for the big shakedown. You'd have thought we were Khadafy terrorists! After some sort of computer check, we were finally cleared and back on the trail to Warmley.

**ROLLING NORTH:** I'd seen a town named "BRYANT" northwest of Estevan on an old SK map. Seeing a town bearing my name was an interesting prospect...but...there was no sign. Apparently Bryant was as elusive as Warmley.

continued-----next page....

## **"TIME TUNNEL"/Warmley - continued.....**

**FORGET - (the village):** Just east of Stoughton, our trusty Rand McNally showed a place called Forget. Somehow, this seemed like an opportunity for some interesting videotape (if nothing else), so we pulled off Provincial Highway 13 to take a look. Don't blink...this one's really tiny! There was a post office, a handful of businesses (mostly abandoned), and about a dozen homes...all in a two block area. We didn't even see any people. If we had I might have inquired about the pronunciation of the name. Later, I learned that it was named in honor of the gentleman who was the first Lt. Gov. of SK, and the last Lt. Gov. of the Northwest Territories. Most likely Forget is a French surname which would be pronounced 'FOR-ZHAY'...but just for fun I think I'll stick with the English tongue on this one. After all, who could possibly forget Forget?

**STROBES AHoy!:** Just past Forget we crested a small rise and got our first look at 'ground zero'. Off to the northeast the prairie gave way to a long ridge of high hills...the Moose Mountain region just north of Kisbey. Atop the ridge, and clearly visible at about 15 miles, was a strobe-lighted tower. My pulse rate quickened. As we turned north on unpaved Highway #605, dust and loose gravel flew in all directions. We were 10 miles from the tower, and hopefully, Warmley.

**EYES PEELED:** Gray skies were spitting a cold drizzle as we approached the 1276' structure. The strobes blinked incessantly. There were no signs of life. Nowhere did we see anything that revealed the location of Warmley. About a mile south of the tower there was what appeared to be an abandoned school. No markings. A two-rut dirt trail past the school led to an abandoned farm. To the immediate north of the tower...nothing. The view from the tower/transmitter site was spectacular...but where was the town?

**NOW WHAT?** As I stood by the green and white transmitter building and craned my neck to see the transmitting antenna atop the tower, I couldn't help but reflect back to what had caused me to seek out this isolated place. The thought that the signal transmitted by this equipment had made its way to my home in Nashville, TN seemed almost mind-boggling. I was 1237 air miles from where I had begun my search for answers to the mysteries of this remote area. Could dxers who had received this station possibly visualize the beautiful expense of this location? Had other dxers ventured here? Were they as far from finding answers as I appeared to be? Surely someone must know something about Warmley!

**DON'T GIVE UP!:** While those thoughts flashed through my mind, Chuck had been doing some thinking of his own and suggested; "Let's go back down to that school and take another look. I'll bet that's your Warmley." Good idea, I thought. We drove back for a closer look, but came away with only a vision of that lonely one room school...the tower looming and strobes flashing in the background. By this time dusk was setting in and we were already hours late for a rendezvous with CKX-tv weatherman Ron Thompson in Brandon, MB. If there were to be any answers they would have to come later and in another form. The pilgrimage to CFSS-land thus far had been a 'bust'. As we headed north toward the Trans-Canada highway I spotted an inhabited farm about three miles from the tower. As a last-ditch resort, I decided to ask the occupants about my mystery town.

**FINALLY...AN ANSWER (of sorts):** Fully aware that ordinary folks don't know anything about dx, I opted to avoid that subject in my line of questioning. Not unlike the border officials, the people at this farm were going to be suspicious. Here was a car with ND plates and a guy from TN wondering about a town that apparently didn't exist. I'd have to be careful not to appear to be some sort of lunatic! A knock on the door was answered by a beefy looking guy who gave me the once over but didn't say a thing. After a momentary awkward pause, I said, "This is probably going to seem like a strange question, but what do you know about Warmley?" He almost stared a hole through me before responding, "Well, there really isn't such a place...any more...!"

**CONCLUDES NEXT MONTH**

## SOUTHERN FM DX

Wiseblood, cont.

APRIL 1994

Comments: First time ever, I've experienced tropo to the Carribean, in two years DXing here, the best overall opening so far was 3-4 & 3-5; new country Cuba with provincial station on 93.5 from Santa Clara; Guatemala & Jamaica heard last year by Es, though RJR 90.5 at 1475 miles is, by far, my farthest stations by tr. Cuba at 1135 is 2nd; Guatemala at 905 miles TOTALS as of 3-8. GRAND TOTAL: 652 stations, 88-92 146 stations, 27 states, 8 MEX states & 7 F. O.

Todd Emslie, 13 Warren St., Ryde, 2112, Sydney, AUSTRALIA

Equip.: Onkyo T-9090 II FM tuner, two Triax stereo 8 element yagi antennas mounted horizontally and vertically on separate masts at 25' agl and masts separated at 40', Bolin phase box, Enotator 105TS and Kenpro KR400RC rotators, ICOM R7000, 40 ft. DSC 2.1 coax

## SOUTHERN FM DX

Emslie, cont.

APRIL 1994

During our peak months of December and January a variety of distant FM signals were received here in Sydney via double hop sporadic E. Two overseas countries in the Pacific were received for the first time, Fiji at 2000 miles and my most distant FM DX to date--KSBS 92.1 American Samoa at 2700 miles. Both of these countries are difficult to receive in Australia via double hop E because of the their relatively low powers(1 kw Fiji, 3 kw American Samoa) KSBS American Samoa would not have been logged if the Bolin phase box was not used to completely null out a local 15 mile 25 watt 92.1 Sydney tx. Low powered 100 w. FM signals from Wallis Island(French territory, Pacific Ocean)at 2200 miles and a listed 10 watt signal from Tonga(Pacific Ocean)at 2100 miles were reportedly received in Bombala NSW Australia.

Regarding my unidentified suspected U. S. territory 92.9 tx received on 2/6. This signal has now been identified as VL2NI Norfolk Island(1030 miles)in the Pacific Ocean. Apparently VL2NI received syndicated programs from overseas sources and often broadcast these programs with out editing out advertisements. This explains why I heard the U. S. Army/Naval Reserve public service announcements.

Another good opening into Southern Illinois on February 16, with several of the regulars in, plus new station WXLt 95.1, now on with a soft AC format. Their address is: P. O. Box 95, Herrin, IL 62948. Another opening, yet more widespread, occurred on February 21, with more stations from Missouri filtering in, and another opening on March 5 into central Illinois(after a high of 69 degrees that day, it was 73 the following day). I am looking into buying an Archerotor for my VU-110 this spring, so I can be able to bag even more stations. (The spring warmth should be making many of those stations above come in as ho-hum regulars by now. I can hear Wichita from around 115 mi. on my car radio every day without the spring warmth. DB)

WILLIAMSVILLE, NEW YORK 14221  
e-mail: coniglio@acsu.buffalo.edu

For DXers in: MA,NH,VT,CT,MA,RI,NY,PA,NJ,OH,MI,IN,IL,WI,MN,IA,NE,SD,ND,MT,WY,ID, WA,OR,AK,Canada  
APRIL 1994 DEADLINE: The 5th LOG CUTOFF: 3 months from postmark

A very small column once again this month. Weather patterns over the region have not been conducive to any tropo occurring at all, other than very isolated openings. No off-season e-skip to report this time around, either. Tropo-scatter is the only thing keeping FM DXers busy! Keep an ear out though, by now spring tropo may have kicked into gear.

RICHARD CONTONE - 162-07 87th ST. - JAMAICA, NEW YORK 11414

## FEBRUARY 9, 1994 Tropo

1900 WSHR 91.9 NY Lake Ronkonkoma,  
very faint, swing music of Long Island

50

91.9 is a DX home for me since all stations are low power. Haven't heard from the pirate on it, but heard a college station that listed on 90.3. Nothing else to report.

## WELCOME NEW REPORTER!!

MARK ALEXANDER HUMENYK - 26 CRESTRIDGE HEIGHTS. RD -  
WESTON, ONTARIO M9P 1A4 CANADA

Equipment: Hitachi 3D7 w/ whip antenna

New station: 104.9 Irate FM, in English, with music by Bob Marley called "Buffalo Soldier", with ID as "IRATE-FM", with test 3 times by OM, then abruptly off, February 27 at 1830. I thought it belongs to CHOW-FM in Welland (What? Is CHOW supposed to move to 104.9 now? oh no! -gc), but no word on the QTH where Irate-FM is? (I know of no such licensed station. It sounds like you had a pirate! If it was very strong the origin is likely very close to your place.-gc) Can anyone in the Toronto area help WTFDA members to find a store full of TV/FM DXing supplies within the Toronto area, either new or used equipment, I am having a hard time finding those supplies, parts, and accessories so I can get involved in TV/FM DX. Thank you! (Mark, welcome to WTFDA! Hope to see you reporting often!-gc)

JBURCE HALL - 5 STIRTON AVE. - BRANTFORD, ONTARIO CANADA N3T 1E2

Equipment: JVC JR-S201 receiver (IF mod with 3 110 khz filters), Magnum Dynalab Sleuth 205 amp, Probe 9 fed with RG6 at 50 feet AGL, Crown Rotor, Distances are in kilometres.

RICHARD CONTONE - 162-07 87th ST. - JAMAICA, NEW YORK 11414

- ? WBLI 106.1 NY Patchogue, semi-local  
interference from wideband local on 105.9
- ? WRVW 93.5 NY Hudson, out of phase with  
WRTN New Rochelle (Richard, this is the station in  
Hudson. These are the most recent calls I have-gc)
- ? WAYV 95.1 NJ Atlantic City, WAYV sounds  
like a semi local that rocks S. New Jersey

I added an indoor antenna, an Archer color Eagle VHF/FM/UHF which has a tuning capacitor that is 12 position where a station like the one in Hudson, NY are audible with the Archer amp set at 20 db. Looking forward to mid-year TV DX (Keep an eye out for decent FM openings if TV conditions are up tool-gc)

R. Contone

JIM RENFREW - 61 WILCOX ST. - ROCHESTER, NEW YORK 14607-3832

Jim writes, via Internet, with a question that he hopes someone out there can assist him with. His JVC radio was recently stolen (sorry to hear that, Jim). His new car radio has one problem: it "mutes" DX quality signals, like many car radios today do unfortunately. He is wondering if anyone out there has any advice on whether or not defeating this feature is possible. If you have a suggestion, please write Jim at the address above. Thanks for your help!

Still very slow DX-wise as of late. No ducting of any importance since mid-December. No doubt the wintry weather patterns have had something to do with this. It hasn't been the record breaking winter here in Buffalo that they have had elsewhere (as of this writing we are up to 98.9" total accumulation, which is about 14" above normal so far, but well under any record), but still a fairly bad winter. Thanks to Matt Sittel, and Bob Smolarek, who sent logos. I would also like to thank those of you who have assisted with sending in "station news". This information is very valuable to DXers, and is much appreciated. If one of your locals changes format, or, in the sad event of a new local, hi, let us know about it, so others can keep an eye or ear out for it!

73, Greg

REPORT TO THE VUD!!

# WESTERN TV-DX

Fred McCormack  
PO Box 65666  
St. Paul MN 55165-0666

(612) 735-6860

Deadline: 05-12-94

Cut-off: 02-01-94

April 1994

Western TV-DX has a definitely "southern" flavor this month, including John Ebeling's annual Barbados trans-equatorial skip report.

Note # 1 - I suspect that translators on channels 69 (KENS-5) and 59 (cultural, maybe parallel KLRN-9) are in Uvalde (west of San Antonio), again at 2000. [K69FC and K59EY. fm]

Note # 2 - Univision, northwest, same heading as Lubbock's UHF's. [Possibly K51BX, Woodrow. I can't confirm network. fm]

Note # 3 - VJN. Lubbock UHF's like local. [Possibly K62DG, Lubbock. Again, I can't confirm programming. fm]

Note # 4 - Religious program. At this time, unid channel 51 Univision was in with stable color signal. [Possibly Prime Time Christian's CP, K19DK, Brownfield. I don't know that it is on. fm]

Note # 5 - TBN. I suspect it's in the Gainesville area. At this time, WCJB-20 like local and W31AT with weak but stable color picture. W69AY?

Note # 6 - "You are watching Dianess". At 0700, Jhon Jhonson show.

Note # 7 - I logged this channel 1230-1815 CST in and out carrying HSC, heading north Florida. WHBR-Pensacola?

Extraordinary tropo opening January 5/6: many 1000+ miles (relogs and nine new ones). We got up to 95° F (summer like temperature. January 7: northwest wind for more than six hours, breaking my antenna mastil for UHF dish. Fortunately, no damage to the antenna. I put it up again on January 8 evening, just in time for another nice Gulf DX.

Nice tropo on February 8th with three unid LPTVs from northwest Texas. We had 90° F on this day.

I'm logging again KLTJ-22 almost every day. So they are on. This according to my comment in the February VUD.

William Eckberg, 1032 Sterling Road, Dixon IL 61021

CST

Equipment: See February 1994 Western TV-DX.

## February 1994

12 gw 2200	W52BI	52 IL	15
	(Sterling	WwTO-35)	

I've seen Home Shopping Spree from 0200-0430 every weekday night on channel 39 since November. The signal is satisfactory 75% of the time. I've never seen a local ad or ID. With my antenna on Murfreesboro, I suspected it to be them even at 435 miles. They are full power. I called recently and was told they have religious programming at that hour. So the signal must originate in the Champaign-Evansville corridor. Why hasn't anyone else reported it? I am mystified. Local Rockford 39 is on except those hours. [It is W39BH, Champaign. It was licensed 10/06/92 and is listed as 12.5 KW at 248' agl. fm]

Sterling 52 came on in late November. I never reported them as I never saw their QTH or ID until recently. They ID Sterling-Dixon.

## William Eckberg (continued)

El Paso 4 is easy to log via meteor scatter at the times indicated. Their ID covers the entire screen.

Dubuque 40 was noted January 24 at 2105 with ID and a technical difficulties slide. They had no programming for several days. Most of the time they broadcast unid color bars.

John Ebeling, 6843 County Road 47, Alborn MN 55702 (218-345-6718)

CST

Trans-equatorial E skip noted in Barbados from February 4-18, 1994. All times in CST - local time was two hours ahead (I did not change my watch). All on south coast of the island:

- |    |            |         |                                                                                     |
|----|------------|---------|-------------------------------------------------------------------------------------|
| 7  | 1945-2200+ | chs 2-5 | Spanish audio (channel 2 really active).                                            |
| 8  | 2000-2100+ | chs 2-3 | MUF up to chs 4-6 @ 2100.                                                           |
| 9  | 2000-2200+ | chs 2-4 | Spanish audio. Had picture on 2; audio had echo. Heard "Colombia" mentioned @ 2200. |
| 10 | 1700-2200+ | chs 2-6 | Spanish. Images on chs 2 and 4. Opening in FM band to 97+ MHz.                      |

| 17 | 1800       | chs 2-6 | Spanish. Diminishing to only channel 2 @ 2000.                                      |

All E skip on east-west pattern using "rabbit ears" on top of set, second floor in a concrete building. Set was a 19" Samsung, Model TC 9865TB, manufactured in Mexico in September of 1991.

Never did notice any daytime E skip; always at night. The E skip is something like an intense auroral E skip opening - it is one hell of a mess with very little audio to be heard. I'm sure there were a few other evenings which may have had some E skip, but was not about to hang around looking for it. Too many other things to do. Wore only shorts or swimsuits for two weeks and it was great!

- 24 - Sky-Vision

TDRS

- 11 - is now called America 1
- 13 - someone now testing in PAL format (maybe new Polish service)

- 1 - drop Digisat - not seen recently

There are no other changes at this time. The new services mentioned in the last column will be next month. A brief comment or 2 on Tom Bryant's article in the FORUM. All programming (almost all) from France in the French areas of the Western Hemisphere currently originate from Telecom 2A at 8 West transponders 1, 2, 4, and 5 using both PAL and SECAM color format and 615 lines. As an integral part of France - they also send back to France their news feeds and other programming. Their ID's are quite colorful (tropical birds, flowers, etc.) That's all for now - see you in 30

*Change*

NM KFLQ 91.5 Albuquerque: P. O. Box 8384, zip 87198. Letter verifying reception signed by both Steven Frill, Eng. & Dan Rosecrans, Station Manager. Send bumper stickers, program skeds. (Elving)

WI WOSX 92.3 Spencer: % P. O. Box 921, Marshfield, WI 54449. Short letter letter from the whole staff saying I'm the greatest distance we have heard from. The signers are: Ron Eekes, Sales, Gerald Youker, Sr. Sales, Kevin J. O'Brien Program Dir., Kevin J. Sullivan, Sales/Sports Director, Justin King, Office Manager, Dawn M. Johnsen, Sales Manager, & Jack Hoehn, GM. (Elving).

Well, thats it for this time. Lots of items after so long with nothing to report. Sorry about missing a few months. But things happen! I hope this all looks okay, as I'm now using WP 6.00 for Windows, and trying to get used to it. Hope to have another column next month, as more came in that I did not get to. 73.s and see you in 30. de KA3TCC ...
